INTERNATIONAL SEARCH REPORT

International application No.

PCT/JP2004/003003

Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:
because they relate to subject matter not required to be searched by this Authority, namely:
2. ☐ Claims Nos.:
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
3. ☐ Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

The matter common to claims 1-20 is the matter in claim 1.

However, the matter described in claim 1 is not novel because the search has revealed that it is disclosed in, for example, JP 07-180838 A and JP 02-503110 A.

Since the matter common to claims 1-20 makes no contribution over the prior art, it is not a special technical feature within the meaning of PCT Rule 13.2, second sentence.

Therefore there is no matter common to all the claims. There is no other common matter that can be considered as a special technical feature within the meaning of PCT Rule 13.2, second sentence, (continued to extra sheet)

1. ☐ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. ☐ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
4. ☒ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Claims 1 and 2

Remark on Protest

- ☐ The additional search fees were accompanied by the applicant's protest.
- ☐ No protest accompanied the payment of additional search fees.

INTERNATIONAL SEARCH REPORT

International application No.

PCT/JP2004/003003

Continuation of Box No.III of continuation of first sheet(2)

no technical relationship within the meaning of PCT Rule 13 between the different inventions can be seen.

As a consequence, claims 1-20 do not satisfy the requirement of unity of invention.
